WORK EXPERIENCE

Luminar Technolab

MERN Stack Training

Jun 2024 - Dec 2024

- Developing React.js applications with modern JavaScript (ES6+) features.
- Building responsive UIs using Bootstrap and Material UI.
- Working on React-based projects, enhancing state management, component reusability, and API integration.
- Exploring full-stack concepts (MERN stack) with a primary focus on React.js, while gradually learning Node.js, Express, and MongoDB.

EDUCATION

College of Applied Science

Bachelor of Computer Science, Kerala University - 75.3%

June 2021 - March 2024

- Gained experience in front-end technologies, including HTML, CSS, JavaScript, and React.js.
- Built projects that apply real-world problem-solving and coding best practices.

PROJECTS

Media Player Application [🔗](#)

Sep 2024 - Oct 2024

- Built with **React.js**, **Bootstrap**, **JSON Server**, and **REST API**, featuring drag-and-drop categorization, watch history tracking, and CRUD operations for video management. Designed an intuitive UI for a seamless experience.
- **Tech Stack:** React.js, Bootstrap, React Router, JSON Server, REST API

Feastly – Food Ordering Web Application [🔗](#)

Oct 2024 - Nov 2024

- Developed a feature-rich ordering system using **React.js** and **Redux Toolkit**, integrating category filtering, search, real-time cart updates, and a protected checkout flow. Added interactive elements like toast notifications and loading animations.
- **Tech Stack:** React.js, Redux Toolkit, React Router, Tailwind CSS, React Hot Toast, React Spinners

Portfolio [🔗](#)

Dec 2024 - Jan 2025

- Created a modern, responsive portfolio with **React.js**, incorporating smooth navigation, GitHub integration, and resume downloads for a professional showcase.
- **Tech Stack:** React.js, React Router, CSS, Bootstrap, JavaScript

SKILLS

- Frontend: React.js, JavaScript, HTML, CSS, Bootstrap
- State Management: Redux, Redux Toolkit, React Hooks
- UI/UX: Responsive Design, Material UI, React Bootstrap
- Version Control: Git, GitHub
